ABDUL SABOOR ALI

Web Developer

To whom it may concern,

Accomplished Front-End Engineer confident in design, development, and team leadership. Consistent in accomplishing project goals and satisfying customers with exceptional software solutions. Well-versed in current technologies, trends & programming languages.

3 years ago I started working with clients and partners, helping them to create innovative projects. I've always been working on these projects with endless passion and an eye for detail. I'm a true specialist when it comes to these types of things.

" Without effort, your talent is nothing more than unmet potential. Without effort, your skill is nothing more than what you could have but didn't."

I'm Abdul Saboor Ali, a self-taught passionate Front End developer from Bahawalpur, currently working at Yoan systems as a Front End engineer. I've been building websites & eCommerce stores since, when I was in 11th standard, I've made 50+ websites and different projects and I also possess magical powers of using react.Js and javascript to build delightful user interfaces.
